SUBJECT : Designation of Area Safety Officers
Investigation and Reporting of Accidents

1. Reference is made to revised 10 May 1972, paragraphs b(3) and c, which require operating officials and heads of independent offices to designate Area Safety Officers who, in turn, are to investigate accidents and submit Accident Report Form 2652a to the CIA Safety Officer.

STAT

2. The Occupational Safety and Health Act and Executive Order 11612 set stringent requirements for the immediate reporting of accidents and injuries and subsequent record keeping procedures. The act also requires that quarterly and annual reports be submitted to the Department of Labor. Prompt reporting of these incidents is necessary to insure accurate reports to the Department of Labor. Further, the accident reports provide Safety Officers and appropriate interested authorities with information on unsafe practices and conditions which they, in turn, can correct to develop, strengthen, and maintain an effective safety program.

3. Analyses by the Safety Staff of the injuries incurred by DCI personnel during the first seven months of 1972 reveal a total of four (4) injuries. Each addressee will receive an attachment to this memorandum summarizing the accident reporting performance of his office.

4. It is requested that this Office be advised of those individuals designated as Safety Officers. A representative of the Safety Staff will then brief the Safety Officers regarding the responsibilities of the Central Intelligence Agency under the Occupational Safety and Health Act and Executive Order 11612, and also the responsibilities of the Safety Officers as outlined in The Area Safety Officers will also be provided with copies of the Occupational Safety and Health Act, Executive Order 11612, and the Safety and Health Standards promulgated by the Secretary of Labor.
